CMPE 202 Sec 48 # Project Journal

Team Name - TechSoldiers

Team Member – Shivani Pandit

Sprint # 1 (Feb 26 to March 10)

1.What tasks did I work on?

- Read the project requirements and based on it, designed the Architecture diagram.
- Worked on wireframes for Login and Registration
- Based on the problem statement provided created wireframes for Homepage and Listing Page.

2. What do I plan to do before the next weekly Scrum meeting?

- Wireframes for Booking hotels and Booking Summary
- Hotel Listing UI

3. What task blockers did I have?

- Understanding the UI requirement and the frontend tech stack that would be used

Sprint # 2 (March 11 to March 24)

1.What tasks did I work on?

- The wireframes for Booking Page and Booking Summary page
- Booking listing frontend to display all the hotels based on location

2. What do I plan to do before the next weekly Scrum meeting?

- The frontend UI for the wireframes already created

3. What task blockers did I have?

- Understating the problem statement and gauging the requirements to develop the frontend components

Sprint # 3 (March 25 to April 7)

1.What tasks did I work on?

- Booking Hotel frontend UI
- Booking Summary frontend UI
- Frontend Integration

2. What do I plan to do before the next weekly Scrum meeting?

- My Bookings page with Change/ Cancel Booking Wireframes

3. What task blockers did I have?

- Needed to integrate the APIs with the frontend and making the necessary changes to accommodate the same.

Sprint # 4 (April 8 to April 22)

1.What tasks did I work on?

- Backend services for creation (hotel, location, room) UI
- My Bookings Change/ Cancel Booking Wireframes
- My Bookings Change/ Cancel Booking UI
- Continued work on frontend integration

2. What do I plan to do before the next weekly Scrum meeting?

- Booking Summary page updates to accommodate new integrations

3. What task blockers did I have?

- Working on the integration for updating booking details where I faced an issue with user authentication

Sprint # 5 (April 23 to May 9)

1.What tasks did I work on?

- Documentation for the demo

2. What do I plan to do before the next weekly Scrum meeting?

- Review integrations and documetations
- Update Readme and documentation files to the git repo.

3. What task blockers did I have?

- No blockers
